

Get It Done Faster

The LK15CC USB Type-C to Type-C cable supports PD charging for a rapid charging experience on the latest Type-C devices, including smartphones and tablets. High-speed sync and charge data rates up to 480Mbps quickly transfer movies, music, or photo libraries within seconds.

Quality Within Reach

With a bend test pass rating of 30,000 times, the LK15CC cable is strong enough to handle everyday charging needs with ease. The carefully designed connectors were engineered to provide durable strain relief from daily usage for an extended lifespan, while also reversible for maximum convenience.

Features

- USB Type-C to Type-C cable is the perfect companion for the latest smartphones and tablets
- Supports PD charging for a rapid charging experience on USB Type-C devices
- Sync and charge with high-speed data rates up to 480Mbps
- 22 AWG cable provides long-lasting strength with a bend test pass rating of 30,000 times
- Connectors are reversible for maximum convenience and durable for extended lifespan with strain relief design
- 2 length options, 100cm/3.3ft and 200cm/6.6ft, provide wider coverage for a variety of needs and situations
- Case-friendly design enables it to connect to most mobile devices without needing to remove the case

Specifications

- Transfer Speed: 480Mbps
- Cable Diameter: 22AWG
- Weight: 25g (100cm), 45g (200cm)
- Material: PVC
- Color: Black, White
- Function: Charging and data transmission
- Available Interface (Output): USB Type-C
- Available Interface (Input): USB Type-C
- Cable Length: 100cm/3.3ft, 200cm/6.6ft
- Certification: Green Dot, RoHS, Recycling Codes, WEEE
- Warranty: 12 months, 24 months (EU)
